Daniel Lima de Sousa

Software Engineer

ABOUT

Hello! I'm Daniel, a computer scientist and software developer focused on solving complex architectural problems.

Experience

Freelance Developer

Independent

Jan 2026 - Present

Integration management, API creation, native solutions, WordPress pages, and web development.

Software Development Intern

SSP - Pi

Mai 2026 - Mai 2026

Implementation of local infrastructure via hypervisors and development of IoT solutions using Raspberry Pi.

Comprehensive work, from Proof of Concept (PoC) to the integration of GPS sensors and embedded storage systems for efficient data collection in the field.

Bachelor's Degree in Computer Science

Federal University of Piauí - UFPI

2021 - 2025
